Summary

I'm a PhD candidate at the VR Lab of Beihang University from 2021, supervised by Prof. Qinqing Zhao and Prof. Yang Gao. My research focuses on physical simulation in computer graphics. Currently I am a visiting student at University College London, supervised by Prof. He Wang. I am about to graduate in 2026/2027. Interest: Numerical Methods, Physical Simulation, Physical Based Animation, Reinforcement Learning, Computer Graphics.

Education

University College London, Visiting PhD in Computer Science	Sept 2025 – Sept 2026
Beihang University (BUAA), PhD in Computer Science	Sept 2021 – Dec 2026
Beihang University (BUAA), MSc in Power Engineering and Engineering Thermophysics	Sept 2018 – June 2021
University of Michigan, Dearborn, Exchange Student in Energy and Power Engineering	Sept 2016 – May 2017
North China Electric Power University (Beijing), BSc in Energy and Power Engineering	Sept 2014 – July 2018

Experience

R&D, Zeno Tech – Online	June 2022 – Dec 2022
-------------------------	----------------------

- Intern: R&D of the PBD method in the DCC software using C++.

R&D, Taichi Graphics – Beijing

Feb 2023 – Sept 2023

- Intern: R&D of the PBD method. Supervised by Dr. Tiantian Liu, development of PBD solver.

R&D, Alibaba – Beijing

May 2025 – Nov 2025

- R&D of the multigrid accelerated GPU-based muscle simulation in Houdini.
